

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge you to reject the NAB's petition 04-160. This is crap that everything we do is controlled in this manner. It is fair competition, the those who provide a better product should not the listening public.
